The company is part of the Borgestad Industries that is included in the BorgestadGroup. Borgestad Industries with a turnover of 630 million was introduced on the Oslo Stock Exchange in autumn 2008. Höganäs Bjuf AB which is a profitable company with global customers / suppliers are currently over 150 employees. About 2/3 of the total production volume is exported to more than 60 countries. Customers are mainly in the cement and steel industries.

The business area Cement has a leading expertise to deliver refractory solutions to the cement production industry, based on assignment to more than 400 cement works worldwide.

More information can be found on www.hoganasbjuf.com and www.borgestadindustries.com

For business area Cement in Höganäs Bjuf AB, a global company in an expansionary phase, we are seeking a Project Manager who can continue to develop our business in the global cement industry. We offer you a varied and challenging job with opportunities to influence the future development of Höganäs Bjuf.

You are responsible for ...

- to coordinate technical projects both internally and externally with our customers
- solutions/materials in our designs together with our designers
- to ensure that the customer is satisfied with the project implementation and results
- to closely together with the customer run joint projects with a focus on delivery and quality
- to be able to travel to conduct your business "the world is your field of work"

You have ...

- technical training and experience in the refractory industry
- at least 5 years experience of projects in the refractory industry and is comfortable to independently carry out projects on an international market
- you write and speak Swedish and English fluently, and if you master one more non-Nordic language it is an advantage.
- drive and a strong internal engine with focus on results and a positive attitude

We offer ...

- a stimulating, varied and independent work in a well-established company
- an opportunity to work with international clients from other cultures
- a flat organization with short decision paths
- a workplace in the vibrant Helsingborg region
